Ui24R
24-Channel Digital Mixer / Multi-Track USB Recorder With Wireless Control

HIGHLIGHTS

More ways to connect
24 channels of I/O, including 10 combo 1/4"-TRS/XLR, 10 XLR, 2 line, and 2 channels of digital playback for a total of 24 simultaneous inputs.

More ways to control
Onboard dual-band WiFi allows up to 10 devices to control Ui24R from iOS, Android, Windows, Mac OS and Linux browsers without installing apps.

Integrates the best of HARMAN
Warm Studer-designed preamps, lush Lexicon reverbs, dbx feedback suppression, cutting-edge DigiTech amp modeling, and more.

Dual-path Multi-track recording
Multi-track recording of all 22 inputs and the stereo mix, directly to a USB storage drive and a connected computer.

Connected PA compatible
Experience enhanced integration with the HARMAN Connected PA app and compatible products.

APPLICATIONS

LIVE SOUND
MULTI-TRACK STUDIO RECORDING

A COMPLETE DIGITAL MIXING SYSTEM
The Ui24R is a complete digital mixing and multi-track recording system that delivers flexible I/O, pristine sound quality, intuitive wireless control, and roadworthy reliability—all in a streamlined design. The system can be controlled by up to 10 devices via Ethernet or built-in dual-band Wi-Fi, making it possible to control mixing and multi-track recording wirelessly. Renowned Lexicon, dbx and DigiTech signal processing ensures pristine sound, while 20 Studer-designed microphone preamps deliver more professional inputs than any other mixer in its class. The compact, rack-mounted Ui24R is also compatible with the new HARMAN Connected PA ecosystem, and offers unprecedented control, versatility and power at an incredible value.

KEY MESSAGES

MORE WAYS TO CONNECT
When you need a mixer with comprehensive connections and a compact footprint, Ui24R provides the perfect solution. The streamlined Ui24R allows you to mix from multiple sources including 10 combo 1/4"-TRS/XLR, 10 XLR, 2 line level inputs, and 2 channels of digital USB playback for a total of 24 channels. With its flexible and high-quality I/O, Ui24R gives venues, bands and engineers room to grow, while expanding your creative options.

MORE WAYS TO CONTROL
Control Ui24R from the device of your choice via iOS, Android, Windows, Mac OS and Linux browsers, without installing apps. Onboard dual-band WiFi ensures you (and up to 9 members of the band) always have creative control. Musicians can adjust their individual mix on stage while the FOH engineer optimizes the audience experience. Experience easier set up and control when used with the HARMAN Connected PA App and compatible products like JBL PRX800W loudspeakers, dbx DI1 stageboxes, and AKG PSI microphones.

MULTI-TRACK RECORDING AND PLAYBACK
Ui24R is more than just a complete mixing system—it’s also a top-notch recording tool. Enjoy peace of mind with dual-path, multi-track recording of all 22 inputs and your stereo mix, directly to a USB storage drive AND a connected computer. The multichannel USB audio interface also makes it easy to integrate the Ui24R into your recording studio for production work with your favorite DAW.

HARMAN SOUND QUALITY AND RELIABILITY
Ui24R brings together industry-leading HARMAN technologies to deliver unprecedented power and mission-critical stability. Renowned Studer preamps deliver rich sound for live performance and multitrack recording, while iconic Lexicon reverbs, choruses, delays, and dbx compression offer polished results for vocals, acoustic guitar and more. dbx AFS2 automatic feedback suppression is available on all monitor outputs, providing an excellent live experience. Plus, DigiTech guitar amp modeling brings a host of effects to any performance, particularly when low stage volume is desired.
